

Plywood System

Serangoon Garden Sec Sch Bouldering Wall

PLYWOOD Par

Cost Effective – Lower costs as compared to fibreglass or other propriety systems.

Lightweight structures – lightweight structures such as volumes and other 3D features can be attached to existing walls.

Easier route setting – More flat surfaces that allow for higher density of handholds to be mounted on the wall.

Easy integration – It can be combined with other systems to maximize square footage within a given budget.
